

TC-800 Camera

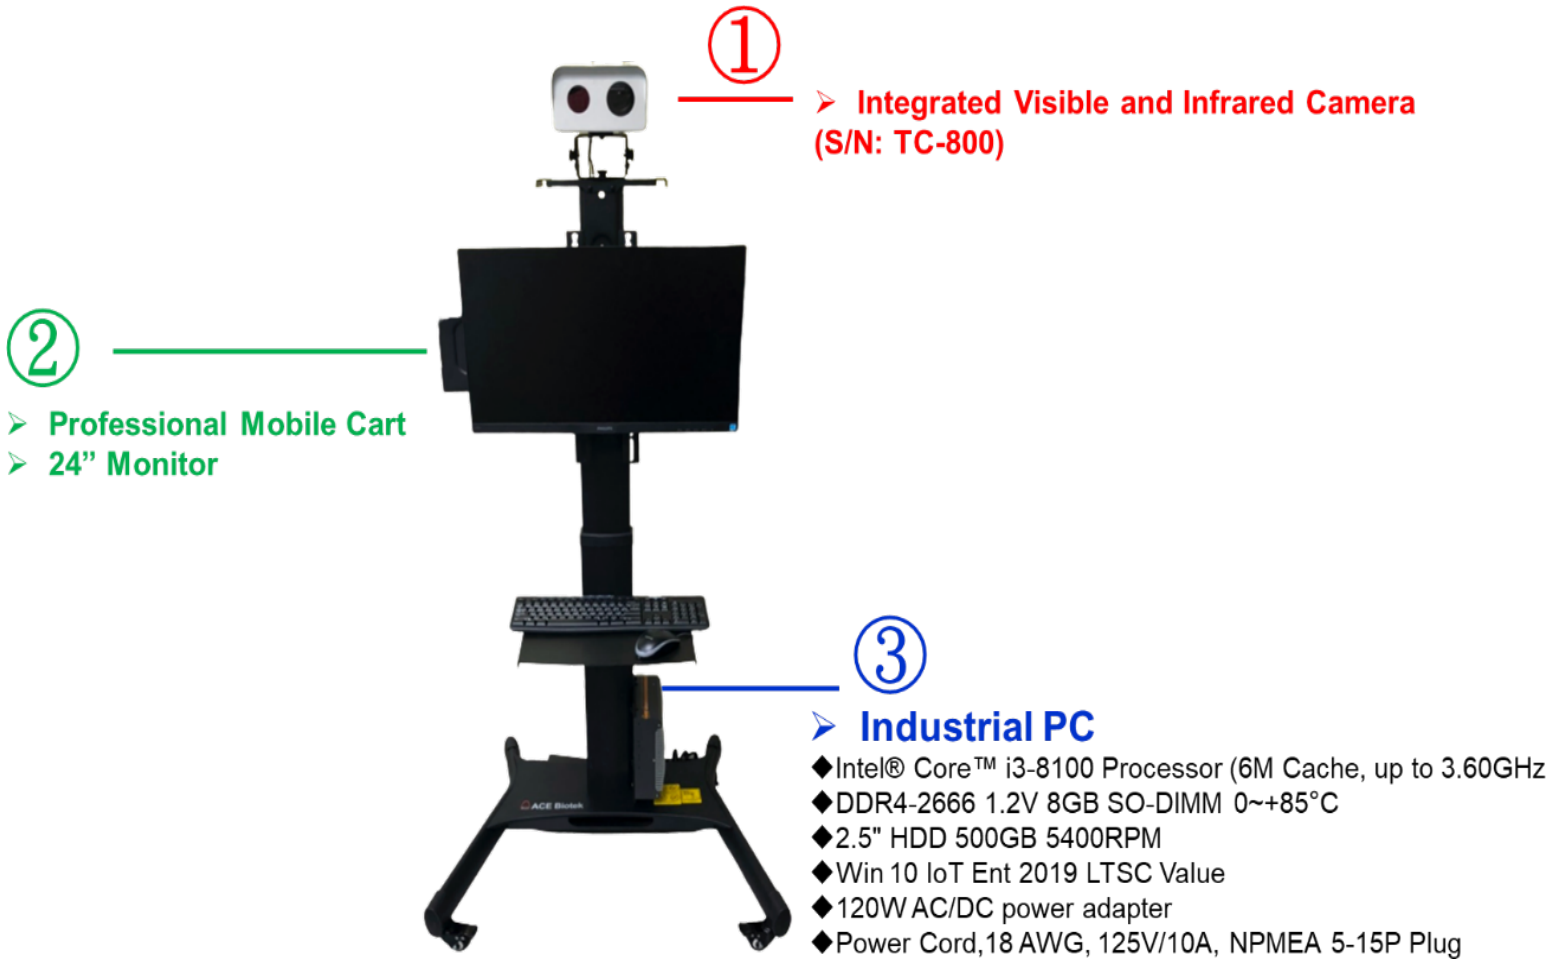

Feature

- Visible and Infrared Image Output with High Resolution
- Accurate and Stable Temperature Screening
- Highest and Lowest Temperature Trace and Highlight
- Multiple Faces Temperature Detection at the same time
- Automatic Abnormal State Alarm and Image and Video Capture

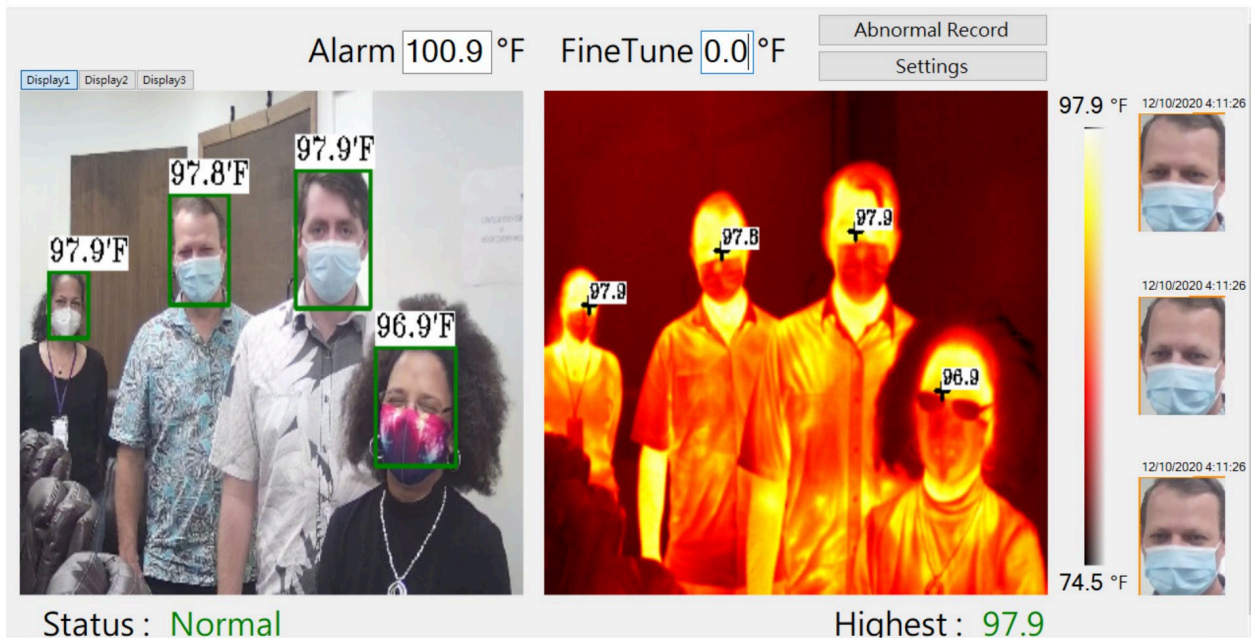

Specifications

Item	Description
IR Resolution	384 x 288 pixels
Visible Resolution	1920 x 1080 pixels
Sensitivity	≤ 40mk @ 77°F
Accuracy	±0.3°C (without blackbody)
Field of View	24.6 x 18.6
Frame Rate	30 Hz
Temperature Range	32°F ~ 122°F
Functions	Multiple Faces Detection AI Identifies with or without Face Mask Exclude Abnormal High Temperature Highest/Lowest Temperature Trace and Highlight Arbitrary Detection Area Setting Alarm Value Setting
Face Detection	Simultaneously detect 30 faces Capture rate: 98% Recognition time: ≤ 0.4 seconds
Records	Alarm Image H.264 Video Records
